SUMMARY

Highly motivated and detail-oriented Full Stack Developer with experience in developing and deploying complex web applications. Comfortable working both independently and in a team, environment using the SCRUM methodology.

Although my IT experience is limited, I have a strong problem-solving mindset and a background in running my own business, where I designed and installed security systems. This experience has equipped me with the ability to work under pressure, meet tight deadlines, and effectively handle complex challenges.

PROJECT EXPERIENCE

DesignLab, [Link](#) / [GitHub](#) [MERN Stack, TS, Redux, SASS]

Developed a Full Stack web application for digital product distribution. Implemented authentication (JWT, email verification), content management, subscription payments via WayForPay, cloud file storage (Backblaze S3), and light/dark mode.

Role: FullStack developer.

Filmoteka, [Link](#) / [GitHub](#) [HTML, SASS, JS, REST API, firebase, AJAX, Parcel]

Application with a connected database of films for each user with a login and the ability to add to favorites and watched. Developed site theme change (dark theme) and storage library of "Favorites" and "Watched".

Role: developer.

Drink Master, FrontEnd [Link](#) / [GitHub](#), BackEnd [Swagger](#) / [GitHub](#) [React, redux/toolkit, SASS, API, MongoDB, express, mongoose]

App, with a database on MongoDB, of recipes for each user with a login and the ability to add new and to favorites. Use mobile first. **Role:** BackEnd Team Lead and developed add recipe Page in Front.
